# ABOUT US

We honor to introduce Rexsun Parsian as an industrial leader in domestic manufacturing and installation in commissioning of industrial Fluid Control operates with highly qualified, skilled & experienced engineers by using the latest technologies from European and American companies.

- + Rexsun Parsian group has been established to offer better services in hydraulic & pneumatic in Iran & Middle East.
- + Our own design and technical department, logistics, production & service facilities allow us to provide a full range of services to the customers for all industries.
- + We are proud to undertake not only new projects, but also provide upgrade and repair services for the existing hydraulics systems.
- + We operate to the ISO-Approved management system.
- + Developing relationship with reputed vendors and customers & client organization.

# HYDRAULIC & PNEUMATIC

System Solution  
From Project Planning  
to Implementation.

- . Consult & Conception
- . Project Planning
- . Production
- . Assembly & Initial Startup

The advantage of 12 –year experiences, REXSUN Parsian Company could obtain technical solution according to customers' demands accompany purposeful design, which in fulfillment level would perform effective technical solution and engineering sector. Our system supplies many different applications of engineering with required oil-hydraulic energy, e.g. presses, test systems, pipe processing, plastics, water power and paper machines. We are able to accomplish customer-specific plants quickly, precisely and cost-consciously, also REXSUN Parsian is a comprehensive and standard assembly manufacturer.

Designer, Manufacturer and Supplier  
of hydraulics systems

# REPAIRING OF PUMPS, VALVES, MOTORS & CYLINDERS

+ Hydraulics & Pneumatics components for all kinds of  
Pumps, Valves, Cylinders and Test benches.

## Repair of the Following brands is possible:

- |                    |                     |                 |
|--------------------|---------------------|-----------------|
| + Parker Hannifin  | + Bondioli & Pavesi | + Hydromatic    |
| + Bucher Hydraulic | + Bosch Rexroth     | + Kawasaki      |
| + Hydac            | + Denison           | + Sauer Danfoss |
| + Atos             | + Eaton Vickers     |                 |

Designer, Manufacturer and Supplier  
of hydraulics systems

# OVERVIEW OF OUR SERVICE

- + On-Site Service-trouble shooting, Repairs.
- + Maintenance, Increase machine availability.
- + Maintenance service - maintain operational safety of hydraulics systems, pipes & hoses.
- + Pressure accumulator service-repairs, re-design.

## HYDRAULIC & PNEUMATIC CYLINDER SPECIALIST

### Our Offers

- + Completing new technologies by 2D/3D construction according to requested parameters.
- + Subsequent productions are possible according to customer drawing.
- + Production from individual pieces to develop of serial production.
- + Reworking and changing of hydraulics and pneumatics cylinders of all sizes and constructions.
- + Preparation and chrome-plating of cylinder pipes and rods.
- + Full cost transparency you will receive a non-committal cost and service offer before placing an order.
- + Function and tightness rest of all hydraulics cylinders produced and repaired by Rexsun Parsian Co.

### Our Production Range

- + Length to 4.000 mm, diameter to 700 mm, working pressure to 300 bar.
- + Honing work for cylindrical pipes of diameter to 50-250 mm.
- + Seals in sizes of 5-700 mm.
- + Completing service - everything from one hand, including assembly service.
- + 100% sealing test after repair on performance test bench.

# MARKETING PLAN

+ Rexsun Parsian encounters with fluctuations in incoming orders with flexible portfolio, Planning safety and employees a safe workplace, as the company's customers were able to find out for themselves during the "International Technology Days".

+ The conclusion of many years of activities of Rexsun Parsian with relying on its valuable experiences with appropriate and reliable position, caused obtaining customer satisfaction in designing, supplying, construction, installation, commissioning, repairing, after-sales services and performing technical solutions sector.

Rexsun Parsian Co. has developed to assess the performance and measuring needs of customers by improving quality of its services by establishing an effective and borderless communication chain with European and American brands through international quality systems such as TUV and CRM tools, customers would have good relation with suppliers. REXSUN PARSIAN CO has sustainable growth in performing fluid control project in high quality and highest standard levels.

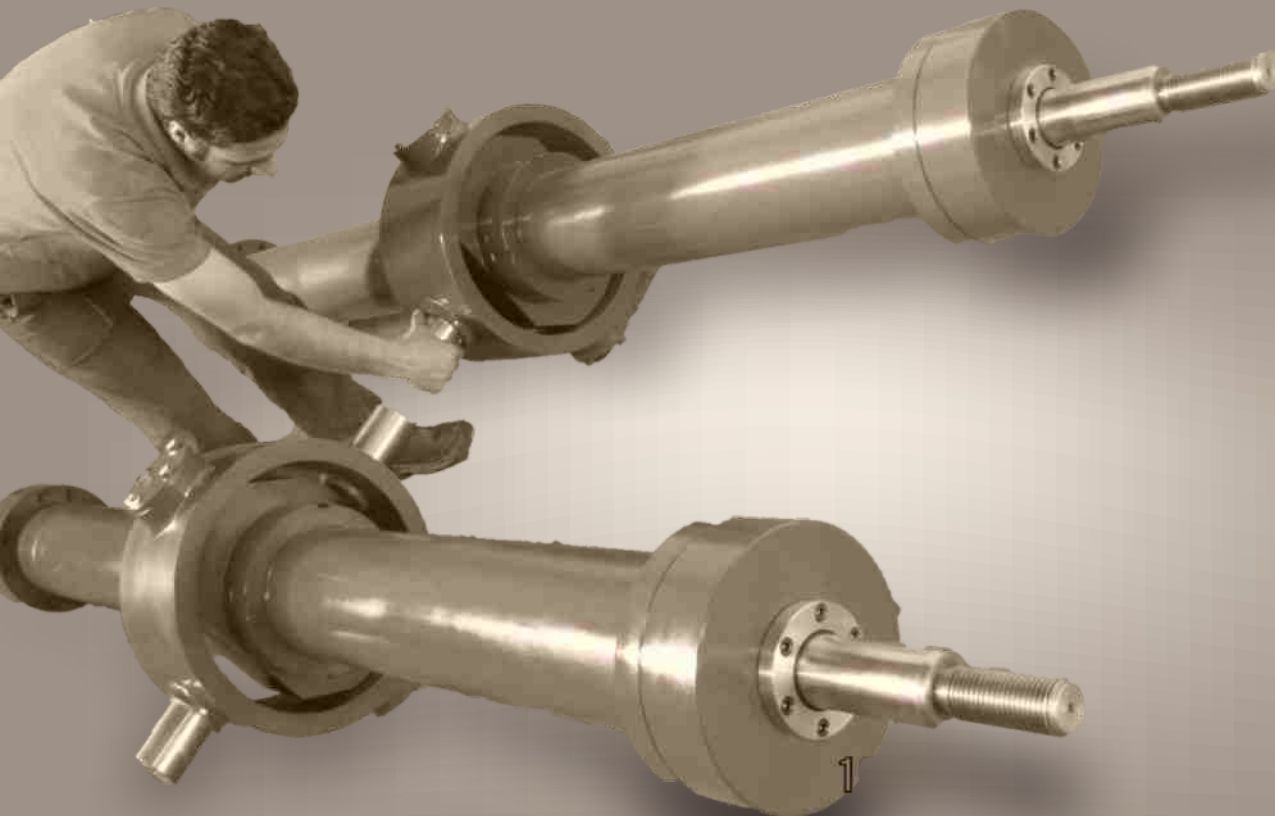

Designer, Manufacturer and Supplier  
of hydraulics systems

# MAJORITY OF OUR ACTIVITY

1. Designing, supplying and implementing hydraulics systems such as Power Packs and Cylinders.
2. Supplier of directional valves, check valves, pressure control valve, flow control valves, proportional valves, all the pumps and hydraulics motor models, cartridge valves, hydraulics accumulators and hydraulics services.

## The **Majority** of our Customers

- + Petrochemical ,Oil & Gas refinery ,Oil companies
- + Steel Industries
- + Cement and Mining
- + Dam, Power plant & Power Management
- + Other Industries(Textile,Machine-Building,Automotive, Food industry,...)

# CYLINDER INFORMATION DESIGN

- + Design according to catalogue
- + Design according to customer orders

## Function:

- + Single acting
- + Double acting

## Type:

- + Mill type
- + Tie rod
- + Welded
- + Telescopic

## Other Products:

- + Booster
- + Accumulator
- + Other hydraulic tools

+ Our industrial hydraulics cylinders are built to use in significant situation.

+ Developing with sustainable growth in creating solutions in business relationship with our customers has allowed us to expand our portfolio of hydraulics cylinders. we have hydraulic cylinder for safe and reliable lifting.

This gives you reliable cost- optimized solutions with an extended life-cycle and intelligent components.

## ANNUAL PARTICIPATION IN EXHIBITION

**Annually, we attend to fairs in Iran and  
Middle East.**

**We would be such an honor to have you  
such a quest to visit us in our stand.**

- + Metallurgy Exhibition in Tehran (January, 2013)
- + Mine Exhibition in Tehran (February, 2013)
- + Tire exhibition in Tehran (March, 2013)
- + Cement Symposium (January, 2014)
- + Steel Symposium (March, 2014)
- + Iran Oil Show (April, 2014)
- + Iran Wood Industry (September, 2014)
- + Iran Industry (October, 2014)
- + Automation Industry (December, 2014)
- + Tehran oil and gas show (May, 2015).
- + Kish Island (Symposium Fair 2016)
- + Tehran oil & Gas fairs (May 2016)
